HE Series – Product Features

- High efficiency lanced fin design.
- “No-hassle” 5 year warranty.
- R-22, R-410A, AC & Heat Pump compatible.
- All coils have durable packaging with bar coded labels on the box.
- Threaded expansion valves available factory installed or as a field installed kit.
- Coils are air pressure tested at 500 psi, leak tested with helium, sealed with rubber plugs, then charged with dry air.
- Piston options include externally accessible body for easy piston change out and/or TXV installation.
- Liquid line refrigerant connections are 3/8" ODF.
- Suction line refrigerant connections are 3/4" ODF (A-Coil 18-36 size models) or 7/8" ODF (A-Coil 42-60 size models & all Horizontal Slab-Coils).
- Suction line refrigerant connections are 1.125" on slab numbers E43, E46, E56, and E65 for size 42 models and higher.
- Copper refrigerant connections for easy brazing on both copper and aluminum slab models.
- Cased coils have heavy gauge embossed galvanized cabinets fully lined with 5/8" foil faced insulation.
- Optional painted cabinets.
- Corrosion resistant coil header plates.
- All A-Coils are upflow or downflow capable.
- All multi-position coils are upflow, downflow, and left or right airflow capable.
- Cabinet insulation hold down tabs for easy drain pan removal.
- Interlocking doors reduce air leakage and allow for easy access.
- Enhanced refrigerant pipe grommets: secure, tight, and easy to install.
- Intertek lab tested 1% or less cabinet air leakage for better efficiency.
- Foam drain seal for reduced air leakage.
- Non-captive refrigerant lines with long stubs make for easy installation.
- All multi-position coils are field convertible from horizontal right-to-left airflow and horizontal left-to-right airflow.
- Dual 3/4" FPT condensate drains on front-left and front-right side of drain pans.
- UV resistant drain pans are molded of high temperature (450 deg. F) engineered polymer.
- Microban® antimicrobial additive to inhibit the growth of mold and mildew in the drain pan.
- HydroTEC™ low water retention drain pan.
- Expansion valve with improved temperature sensing:
 1. Mounted inside cabinet to prevent external sweating
 2. Bulb clamped standard factory installed
 3. Wrapped bulb optional factory installed

WARNING—Face velocity above 350 ft/min. is not recommended for downflow or counterflow applications due to potential water blow-off.

HH Series – Features & Nomenclature

Product Features

- High efficiency lanced fin design.
- “No-hassle” 5 year warranty.
- R-410A, R-22, A/C & heat pump compatible.
- All coils have durable packaging with bar coded labels on the box.
- Threaded expansion valves available factory installed or as a field installed kit.
- Coils are air pressure tested at 500 psi, leak tested with helium, sealed with rubber plugs, then charged with dry air.
- Piston options include externally accessible body for easy piston change out and/or TXV installation.
- Liquid line refrigerant connections are 3/8" ODF.
- Suction line refrigerant connections are 7/8" ODF.

Nomenclature

LA/LH Series – Features & Nomenclature

Product Features

- Patented lanced fin design.
- R-410A, R-22, A/C and heat pump compatible.
- Dual 3/4" FPT condensate drains.
- Liquid line refrigerant connections are 3/8" ODF.
- Suction line refrigerant connections are 7/8" ODF.
- Dual circuit coils have row split circuiting allowing full coil surface to be active when 1 or 2 circuits are operating.
- Factory installed TXV valves.
- Up or down airflow compatible.
- Coils are air pressure tested at 500 psi, leak tested with helium, sealed with rubber plugs, then charged with dry air.
- Drain pans are constructed of aluminum to resist corrosion.
- Heavy gauge embossed galvanized cabinets fully lined with 1/2" insulation.
- Left hand drain and refrigerant connections.
- All coils are individually packaged on skids.

Nomenclature

	LA	6	1	AC	
Large Capacity Coil LA = "A" Coil LH = Horizontal Slab Coil					Refrigerant blank = R-22 4 = R-410A
Tonnage					Application AC = Air Conditioning AC/HP = Air Conditioning & Heat Pump Note: Engineering must verify internal volume for heat pumps.
Number of Circuits					

Application

		Model	Number of Circuits	Application
"A" Coils	Dual Circuit	LA - 6 - 2 AC	(2) 1 1/2 - 3 tons ea. ^[1]	Air Conditioning Only
		LA - 8 - 2 AC	(2) 3 1/2 - 4 tons ea. ^[1]	Air Conditioning Only
		LA - 10 - 2 AC	(2) 3 1/2 - 5 tons ea. ^[1]	Air Conditioning Only
	Single Circuit	LA - 7.5 - 1 AC/HP	(1) 6 - 7 1/2 tons	Air Conditioning or Heat Pump ^[2]
		LA - 10.5 - 1 AC	(1) 7 1/2 - 10 tons	Air Conditioning Only
"H" Coils	Single Circuit	LH - 7.5 - 1 AC/HP	(1) 6 - 7 1/2 tons	Air Conditioning or Heat Pump ^[2]

[1] May be manifolded together in the field to form one circuit.

[2] Engineering must verify internal volume compatibility for heat pumps.

LA/LH Series – Specifications

Dimensions

LA Model	Cabinet Dimensions (Cased)		
	Width	Depth	Height
LA 6	29"	21.5"	24.5"
LA 7.5	33"	21.5"	24.5"
LA 8	35"	21.5"	24.5"
LA 10	42"	21.5"	24.5"
LA 10.5	50.5"	21.5"	22.5"

LA Model	Coil Dimensions (Uncased)		
	Width	Depth	Height
LA 6	25.5"	21"	24.5"
LA 7.5 & 8	32.5"	21"	24.5"
LA 10	39.5"	21"	24.5"
LA 10.5	49.5"	21"	20.5"

LH Model	Cabinet Dimensions (Cased)		
	Width	Depth	Height
LH 7.5	10"	47"	22.75"
Duct Connections	N/A	42.63"	21.25"
