BrassCraft®

American-Made Quality

Founded in 1946 by Robert Zell in Detroit, Michigan, BrassCraft Mfg. Co. innovated and perfected the one-piece water supply valve and the flexible water supply tube. Today these products have become the industry standard for residential and commercial plumbing projects. BrassCraft has headquarters and manufacturing facilities in the U.S. We continue to remain competitive through major investments in our manufacturing facilities and by employing American workers.

State-of-the-Art Engineering and Manufacturing

In the competitive environment of manufacturing, we know that we must meet your specifications for cost and quality. Everything we make is engineered for efficient equipment utilization and quality checked to exacting standards. This commitment to quality parts manufactured to the highest standards in tolerance and finish, has earned us our reputation for excellence.

Compliant Solutions for the 2014 No-Lead* Law

As of January 4, 2014, Federal Public Law 111-380 prohibits the sale of plumbing fixtures with a wetted surface area containing more than a weighted average of 0.25% lead. This law virtually eliminates the lead content of pipes, pipe fittings, plumbing fittings and fixtures intended to convey or dispense water for drinking or cooking.

BrassCraft Manufacturing is meeting the new no-lead* law head on with a comprehensive range of compliant products including brass stops, braided water connectors, brass fittings, and hot water heater connectors.

Look for the checkmark ✓ on packaging to verify that the product meets the new no-lead* legislation requirements. To further assist our customers in separating their inventories from non-compliant product, our master cartons for compliant stops and stop-related products feature a striking BrassCraft blue stripe.

The Latest Technology

When it comes to technology, BrassCraft Manufacturing has consistently led the industry. We understand the benefits of electronic commerce, and are constantly striving to implement the latest technologies to serve you better.

EDI System

Saves time and ensures order accuracy by electronic order submission through our EDI (Electronic Data Interchange) system.

SureCount™ Verification

Our SureCount™ shipping verification system improves efficiency in the distribution stream and reduces your receiving costs. Using state-of-the-art bar code technology, we verify outbound shipments to eliminate the need to double-check the shipment, saving you time and money.

ROA Interface

BrassCraft's exclusive Remote Order Access system enables you to:

- Perform order entry and confirmation
- Check order status and ship dates
- Access invoices and packing slips
- Print packing lists
- Track shipments
- Online proof of delivery

QR Barcodes

We employ QR (Quick Response) barcode technology on our packaging so customers can photo scan barcodes with their smart phones to access rich data about our products. These enhanced applications allow access to specifications, installation instructions and information to assist in the buying decision.

Interactive Web

The streamlined, user-friendly site provides detailed information on the growing range of BrassCraft® plumbing supplies. Our website can be used with most handheld devices from smart phones, feature phones to tablet computers.

The Professional's Choice®

When it comes to customized products to meet code or job requirements, BrassCraft offers the widest range of stop variations including metal stems, lock shields, stuffing boxes, and handle options. So when you need water supply products for any project, small or large, specify the brand that professionals worldwide have trusted for over 65 years – BrassCraft.

The Best Service in the Industry

What good are the best products in the industry without the best service? We match our high manufacturing standards with an equally high standard for customer service. When you call BrassCraft, you're our number one priority. Our sales and service team is ready to answer your questions and fill your orders promptly and courteously.

LEADING THE NO-LEAD WAVE

DID YOU KNOW?

- As of January 2014, leaded products became obsolete
- Non-compliant products are not grandfathered
- BrassCraft Mfg. has a broad selection of compliant products ready to ship, look for the checkmark ✓

WHAT CAN YOU DO?

- Visit www.brasscraft.com for the latest no-lead industry updates
- Convert your inventory before it becomes obsolete

Terms & Abbreviations

The following list of terms and abbreviations are used throughout this catalog. For your convenience, we have included a brief definition or explanation for each of these terms. Thank you for choosing the best. Thank you for choosing BrassCraft!

Fig. 1
Bell Escutcheon

Fig. 2
Faucet Riser

Fig. 3
Braided Flexible
One-Piece Supplies

Comp: Compression.

CPVC: Chlorinated Polyvinyl Chloride, a plastic used in plumbing systems.

CSA: Canadian Standards Association.

Escutcheon: Wall flange, or trim. (Fig. 1)

FIP: Female Iron Pipe.

IAPMO: International Association of Plumbing & Mechanical Officials.

ID: Inside Diameter.

IPS: Iron Pipe Size.

MIP: Male Iron Pipe.

Nom: Nominal measurement is 1/8" less than OD of the tube.

NSF: National Sanitation Foundation.

OD: Outside Diameter.

PEX: Cross-linked Polyethylene, a plastic used in plumbing systems.

Riser: A water supply tube to a faucet or a toilet. (Fig. 2)

Braided Flexible One-Piece Supplies: One-piece water supply featuring BrassCraft's patented engineered polymer braid connector and reinforced PVC flexible connector. Connector is factory attached. (Fig. 3)

Stop: Turns water supply on/off.

UPC: Uniform Plumbing Code.

Quality That Runs in the Family

BrassCraft stops, machined from solid brass, offer the highest quality and most reliable connections. The finished stops are offered for a variety of connections including Compression, Sweat, PEX, CPVC and Push Connect. Options include metal stems, lock shields, dual outlets, dual shut-offs, stuffing boxes and handles.

All three platforms are designed, machined and assembled in the USA for longevity, consistently exceeding industry standards while offering superior performance, and are delivered with exceptional service. As the leading manufacturer of water stops for over 65 years, BrassCraft has the stop to meet your needs.

KT™ Series 1/4 Turn Ball Stops

1/4 turn ball stops are first in it's class with it's robust design and superior performance. Available in a variety of configurations.

G2™ Series 1/4 Turn Stops

1/4 turn stops offer durable construction and innovation. Available with a full range of options, including push connect technology.

Multi-Turn Stops

Multi-turn stops are the industry standard with proven performance. Available in a wide variety of configurations.

Available Individually Boxed

BrassCraft stops are available individually packaged with clear product visual aids and descriptions. These durable boxes feature a reclosable top flap with a cellophane window that allows the customer to see the product.

The convenient easy-to-open and close box keeps the product secure and prevents parts from being lost. Each box also contains an individual UPC number.

Stops available individually boxed are indicated with a 1 suffix at the end of the part number. These stops are also highlighted with **bold print** in this catalog.

Example:

O C R 1 9 X C 1 = 1/2" Nom Comp x 3/8" OD Outlet

Packaged individually in a reclosable box

BrassCraft®

1/4 Turn Water Supply Stops

KT™ Series

1/4 turn ball stops offer superior quality and performance. Additional features and benefits include:

- Positive 1/4 turn shut off
- Precision machined brass ball is specially engineered and mated with PTFE seats to provide smooth operation without freeze ups even after long periods of non-use
- Two high-performance o-rings withstand high temperatures and corrosion from harsh water environments
- Dual Outlet and Dual Outlet/Dual Shut Off configurations available
- 100% leak tested

G2™ Series

1/4 turn technology offers durable construction and proven performance. Additional features and benefits include:

- Positive 1/4 turn shut off
- One-piece shut off mechanism provides smooth operation without freeze ups even after long periods of non-use
- Machined one-piece brass body provides strength, durability, and long lasting performance
- Easy-to-remove handle protects accidental stop operation during rough-ins
- 100% leak tested

BrassCraft®

Multi-Turn Water Supply Stops

The Industry Standard for Quality and Reliability.

Features and benefits include:

- Machined one-piece brass body provides strength, durability and long-lasting performance
- Easy-to-remove handle protects accidental stop operation during rough-ins
- Oval knurled handle provides a secure grip and smooth on/off operation
- Handle variations available for specific configurations - see variations page
- Dual Outlet and Dual Outlet/Dual Shut Off configurations available

PEX Tube Compression Connection

For PEX Tube 3/8" OD and smaller, use plastic compression sleeve.

For PEX Tube larger than 3/8" OD, use brass compression sleeve with stainless steel tube insert.

NOTE: All 3/8" OD PEX Risers come with plastic compression sleeve.
All 1/2" OD PEX Risers come with stainless steel tube insert.

Δ CPVC pre-torqued fittings eliminate the need for tightening on the job.

Dual Outlet, Dual Shut-Off Supply Stops

Unlike a standard dual outlet stop, BrassCraft's dual outlet, dual shut-off 1/4 turn ball stop allows you to turn off the water to one source while working on another. For instance, you can still run hot water out of your faucet and turn off the water to your instant hot water dispenser. This means you don't have to install two separate stops. This added convenience is ideal for:

- Dishwashers
- Ice Makers
- Water Filters
- Instant Hot Water Dispensers

Brass Needle & Ice maker/Humidifier Valves

Product Applications

- For use on instrumentation, hydraulic and pneumatic systems.
- Designed for automotive or industrial use. Not intended for natural gas, LPG, nuclear or aircraft applications.

Product Advantages

- BrassCraft® Needle Valves have metal-to-metal seats with fine thread adjustment.
- Provide positive sealing and flow adjustment up to the capacity of the valve.
- Backed by BrassCraft Mfg.'s 65 plus year history and reputation for quality and service.

Assembly Instructions

- Install with pressure against seat.
- Inspection of straight valve shows one opening is higher than the others.
- Pressure should always be directed against the seat in angle valves, not the stem threads.

PEX Tube Compression Connection

For PEX Tube 3/8" OD and smaller, use plastic compression sleeve.

For PEX Tube larger than 3/8" OD, use brass compression sleeve with stainless steel tube insert.

NOTE: All 3/8" OD PEX Risers come with plastic compression sleeve.
All 1/2" OD PEX Risers come with stainless steel tube insert.

Speedi Plumb® PLUS Connector

BrassCraft® Speedi Plumb® PLUS connectors offer superior performance, with advanced construction and appeal.

The BrassCraft Speedi Plumb® PLUS connector is the world's most advanced flexible water connector. Designed for longer life under the harshest conditions, the BrassCraft

Speedi Plumb® PLUS connector features tough polymer-coated fibers tightly braided around a strong PVC inner hose. The result is a corrosion resistant, highly flexible, extremely reliable water supply connector for use with faucets, toilets, dishwashers, washing machines, water heaters, icemakers and humidifiers.

Long Wing Nuts for Quick & Sure Connections.

Hand-tightened wing nuts offer quicker connections to faucets and toilets, while the long nut ensures dependable thread engagement.

Cone Washer for Universal Fit and Sure Seal.

The cone washer's large sealing surface ensures a secure connection and a universal fit.

BrassCraft Speedi Plumb® PLUS Connectors Resist Corrosion.

The braided polymer-coated fibers in BrassCraft Speedi Plumb® PLUS connectors are specially engineered to resist corrosion caused by chemicals found in common household tile and glass cleaners including:

- Ammonia
- Phosphoric Acid
- Sodium Hypochlorite
- Hydrogen Chloride
- Muriatic Acid
- Dimethyl Benzyl Ammonium Chloride

The BrassCraft Speedi Plumb® PLUS engineered polymer-braided jacket also resists corrosion from solder flux from installation and repair, and completely protects the inner tube, even in a harsh chemical environment.

The BrassCraft Manufacturing Commitment to Compliance.

As an industry leader, we are continuously developing solutions for the ever-changing marketplace. In 2009, we were one of the first manufacturers to introduce no-lead* products compliant with California's low-lead legislation. As this legislation expands to a nationwide implementation in January 2014, we continue our commitment to provide a full range of high quality compliant products, including Speedi Plumb® connectors.

BrassCraft Speedi Plumb® PLUS connectors are IAPMO and CSA listed to ASME A112.18.6-2009/CSA B125.6-2009, the only national standard for flexible water connectors.

*BrassCraft Manufacturing is in compliance with the National Reduction of Lead in Drinking Water Act which became effective nationwide on January 4, 2014. This legislation changes the legal definition of "lead free" from 8% lead to a weighted average lead content of 0.25% with respect to wetted surfaces.

www.brasscraft.com

THE MOST CORROSION RESISTANT CONNECTOR

Allows for Speedier Connections.

The braided polymer-coated fibers bend freely, without kinking or crimping. Installation is easier, especially in cramped quarters.

Patented Engineered Polymer Braid and PVC Hose Resist Leaks.

The BrassCraft Speedi Plumb® PLUS connector's exclusive, patented construction features a high tenacity, multi-filament core yarn, protected by a special polymer coating. The result is optimum corrosion resistance and durability. Inside, our tough PVC tubing resists attack by chlorine and chloramine.

Stop End Provides More Secure Connections.

Deep threads in the compression nut assure secure engagement, while the Elastomer rubber seal eliminates metal-to-metal connections which have been known to damage water stops.

8-Sided Pneumatic Crimp for Greater Dependability.

Precise 8-sided crimp ensures reliable nut-to-hose connections.

BrassCraft Speedi Plumb® PLUS Connectors for Every Application.

Choose from our complete inventory of BrassCraft Speedi Plumb® PLUS connectors for faucet, toilet, dishwasher, washing machine, ice-maker and humidifier hook-ups, and supply kits for dishwashers and "Low Boy" toilets.

Water heater connectors are also available, featuring specially coated fibers for continuous exposure to high heat. Choose from a full line of end fitting configurations.

BrassCraft®

Speedi Plumb® PLUS is the World's Most Advanced Water Connector.

- Corrosion Resistant
- No Kinking or Crimping
- Superior Performance

BrassCraft®

Speedi Plumb® PLUS and Speedi Plumb® Flexible One-Piece Water Supplies

The World's Best Water Connectors.

By combining our trusted brass supply stops with our dependable Braided and Vinyl flexible connectors, BrassCraft has created an easy-to-install, one-piece connection. The result is a quick and easy installation.

One-piece connections are available in a wide variety of options for faucet, toilet and dishwasher applications.

Scan for
more
information

Vinyl

Braided

**8-sided Pneumatic Crimp
for Greater Dependability**
Precise 8-sided crimp
ensures reliable nut-to-hose
connections.

**Allows for Speedier
Connections**

The braided polymer-coated
fibers bend freely, without kinking
or crimping. Installation is easier,
especially in cramped quarters.

**Pre-torqued Fittings
on CPVC Stops**
Eliminate the need for
tightening on the job.

Kwik-In™ Tub & Shower Connectors

Install Tub and Shower Fixtures without Fittings.

Align the valve with the fixture on remodeling jobs or in new work with Kwik-In™ corrugated connectors. The one-piece design, constructed of 5/8" OD x 15" copper tubing, eliminates the need for one or more fittings.

They provide flexibility behind the wall allowing for easier installation, and are IAPMO listed for behind-the-wall use.

Tankless Water Heater Installation Kits

As the world leader in gas and water products, BrassCraft®'s tankless water heater installation kits are no exception. Our tankless water heater installation kits simplify the installation process with fewer connections and a clean, professional finish. Featuring independent, 1/4 turn water control, BrassCraft service valves make it simple to service and test the appliance.

- Large Capacity Gas Connector** with exclusive ProCoat® corrosion resistant coating
- Built-In Port for PR Valve** reduces the number of connections required
- Integrated Drain Valve** with independent, 1/4 turn operation
- Right-Sized Handles** color coded and great for tight installations

BrassCraft's Tankless Water Heater kits offer a wide range of features including:

- One-Piece, Forged Brass Body
- Drain Valve with Brass Safety Cap
- 3/4" ID Coated Stainless Steel Gas Connector
- Available in Sweat & IPS Configurations
- Optional Full-Port Gas Ball Valve

Speedi Plumb® PLUS Engineered Polymer Water Heater Connectors

Superior Flexibility, Superior Corrosion Resistance

No Kinking, No Crimping

The patented polymer braided jacket is specially engineered to allow the connector to bend freely without kinking or crimping. Easy to install, the connector won't work harden with repeated bending.

Advanced Corrosion Resistance

The polymer braid is specially engineered to resist corrosion from harsh household cleaning and repair products.

No Dielectric Union Needed

The engineered polymer braid and rubber core are non-conductive materials and therefore eliminate the need for a dielectric union.

Less Torque to Seal

Rubber washer is easier to install on rough nipple surfaces.

Longer Connector Nuts

A greater number of thread-to-thread contact provides a better seal to lined nipples.

FLEXIBLE POLYMER BRAIDED WATER HEATER CONNECTORS

Copper-Flex™ Water Heater Connectors

Patented Resistance Against Galvanic Corrosion

Patented Internal Dielectric Sleeve

Effectively separates dissimilar metals within the waterway to prevent galvanic corrosion.

No Dielectric Union Needed

Dielectric sleeve eliminates the need for a dielectric union (plastic lined nipple).

Less Torque to Seal

Rubber washer is more resilient than PEX and easier to install on rough nipple surfaces.

Longer Connector Nuts

A greater number of thread-to-thread contact provides a better seal to lined nipples.

Available for PEX connections

ProCoat® Coated Stainless Steel Water Heater Connectors

Greater Flexibility, Superior Corrosion Resistance

Exclusive ProCoat® Clear Coat

Provides superior corrosion resistance to deterioration from harsh chemicals that can cause pin hole leaks.

Full Flow, Maximum Performance

With 3/4" full flow internal diameter, our connectors provide greater water flow without obstruction.

Integrated Dielectric Sleeve

Isolates dissimilar metals within the waterway, where galvanic and electrolytic corrosion have their greatest potential.

No Dielectric Union Needed

Integrated dielectric sleeve eliminates the need to install an additional dielectric union, reducing time and installation costs.

100% Leak Tested

Prior to coating application to ensure connector performance and reliability.

Working Pressures

Working pressures vary by type and size of tubing used, and style of fitting. However, based on .032 wall copper tubing, the pressures may range as follows depending on size:

CONNECTION TYPE PRESSURE	WORKING
Flare (1/8" to 3/4").....	600 to 3,000 PSI
Compression	100 to 400 PSI
Iron Pipe.....	Up to 1,200 PSI
PEX Tubing	Up to 150 PSI
Polyethylene Tubing	Up to 80 PSI

Fitting Thread Size Comparison Chart

General Information

Most brass fittings have a temperature range of -65°F to 250°F. They can be used on copper, brass, aluminum, plastic, and welded steel.

Note: Compression fittings are not recommended for steel tubing.

Part Numbering System

Example:

Part Number

Basic part number.
1-3 digits.

Nut

- A** Rough Die-cast Nut
- B** Chrome Die-cast Nut
- C** Rough Brass Nut
- D** Chrome Brass Nut

Option

- P** Poly Compression Rings
- L** Lead Compression Rings
- R** With Rubber Washer
(P/N 90BR, 90DR, 94BR, 94DR, 96BR, 96DR, 98DR Only)

Waste Connectors Machined from Extruded Solid Brass

Entire connector body is produced from solid brass. Eliminates all potential pin holes and porosity.

- **Uniform Wall Thickness** – No variations in wall thickness. Close dimensional tolerances assured.
- **Cleaner, Smoother Water Ways** – Uniform smooth internal surfaces allow full unobstructed flow through connector.
- **Better Threads** – Uniform cleaner threads ensure positive threaded connections. Less chance of cross-threading.
- **Smooth Finished Appearance...Easier to Assemble** – No burrs or rough surfaces to catch or hang up during assembly.

WATER SUPPLY STOPS – 1/4 TURN BALL STOP (KT™ SERIES)

Use: For use in potable water distribution systems

Design Features:

- **Machined one-piece brass body** provides strength, durability, and long-lasting performance
- **Easy-to-remove handle** protects accidental stop operation during rough-ins
- **Precision-machined brass ball** is specially engineered and mated with PTFE seats to provide smooth operation without freeze ups even after long periods of non-use
- **Two high-performance o-rings** withstand high temperatures and corrosion from harsh water environments
- **Blow-out proof brass stem** is assembled from the inside out with two o-rings to ensure safe, reliable performance
- **Plated stem** provides corrosion resistance and prevents o-ring damage after long periods of non-use
- **Metal handle** is designed for durability, corrosion resistance, and a sleek appearance
- **Dual Outlet and Dual Outlet/Dual Shut-off** configurations available
- **Available with** loose key handle variation
- **100% Leak tested**
-  **No Lead**

Operating Specifications:

Temperature: 40° - 180° F

Pressure: 125 PSI maximum

STOP MATERIAL SPECIFICATIONS

Body	Brass or brass, chrome plated
Stem	Brass, chrome plated
Handle	Zinc die cast, plated
Handle Screw	Steel, zinc plated
O-ring	Rubber
Ball	Brass, chrome plated
Seat	PTFE
Compression Sleeve	Brass
Compression Nut	Brass or brass, chrome plated

Listings & Certifications:

- IAPMO listed to ASME A112.18.1 / CSA B125.1 (File # 0645)
- CSA listed to ASME A112.18.1 / CSA B125.1 (File # 204593)
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

WATER SUPPLY STOPS – 1/4 TURN STOP (G2™ SERIES)

Use: For use in potable water distribution systems. Not intended for recirculating water systems that produce continuous use temperatures above 115° F. For those applications, use our KT™ series ball stops

Design Features:

- **One-piece shut-off mechanism** provides smooth on-off operation without freeze ups even after long periods of non-use
- **Machined one-piece brass body** provides strength, durability, and long-lasting performance
- **Positive 1/4 turn shut-off**
- **Easy-to-remove handle** protects accidental stop operation during rough-ins
- **100% Leak tested**
- **✓ No Lead**

Operating Specifications:

Temperature: 40° - 140° F

Pressure: 125 PSI maximum

STOP MATERIAL SPECIFICATIONS

Body	Brass or brass, chrome plated
Handle	Zinc die cast, plated
Handle Screw	Steel, zinc plated
O-ring	Rubber
Stem Shaft	Polypropylene
Stem Barrel	TPE
Compression Sleeve	Brass
Compression Nut	Brass or brass, chrome plated

Listings & Certifications:

- IAPMO listed to ASME A112.18.1 / CSA B125.1 (File # 0645)
- CSA listed to ASME A112.18.1 / CSA B125.1 (File # 204593)
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

WATER SUPPLY STOPS – 1/4 TURN PUSH CONNECT SUPPLY STOP (G2™ SERIES)

Use: For use in potable water distribution systems. Not intended for recirculating water systems that produce continuous use temperatures above 115° F. For those applications, use our KT™ series ball stops

Design Features:

- **One-piece shut-off mechanism** provides smooth on-off operation without freeze ups even after long periods of non-use
- **Compatible** with PEX, copper, and CPVC
- **Pre-assembled tube insert** is “installation ready” for a faster connection
- **Fast**, reliable, and secure connection
- **Positive** 1/4 turn shut-off
- **Easy-to-remove handle** helps protect against accidental stop operation during rough-ins
- **Available in** Push Connect x Compression and Push Connect x Push Connect configurations
- **Compact machined** one-piece body design
- **100%** Leak tested
-  **No Lead**

Operating Specifications:

Temperature: 40° - 140° F
Pressure: 125 PSI maximum

STOP MATERIAL SPECIFICATIONS

Body	Brass, chrome plated
Handle	Zinc die cast, plated
Handle Screw	Steel, zinc plated
O-ring	Rubber
Stem Shaft	Polypropylene
Stem Barrel	TPE
Removal Flange	Polypropylene
Tube Insert	POM
Gripper Ring	Stainless steel
Push Connect Retainer	Brass
Compression Sleeve	Brass
Compression Nut	Brass, chrome plated

Listings & Certifications:

- IAPMO listed to ASME A112.18.1 / CSA B125.1 and ASSE 1061 (File # 0645)
- CSA listed to ASME A112.18.1 / CSA B125.1 and ASSE 1061 (File # 204593)
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

WATER SUPPLY STOPS – 1/4 TURN PUSH CONNECT SUPPLY STOP (G2™ SERIES)

Use: For use in potable water distribution systems. Not intended for recirculating water systems that produce continuous use temperatures above 115° F. For those applications, use our KT™ series ball stops

Design Features:

- **One-piece shut-off mechanism** provides smooth on-off operation without freeze ups even after long periods of non-use
- **Compatible** with PEX, copper, and CPVC
- **Pre-assembled tube insert** is “installation ready” for a faster connection
- **Fast**, reliable, and secure connection
- **Positive** 1/4 turn shut-off
- **Easy-to-remove handle** helps protect against accidental stop operation during rough-ins
- **Locking clip** adds security to connection while allowing removal if needed
- **Captive removal flange** permits easy removal from tube
- **100%** Leak tested
-  **No Lead**

Operating Specifications:

Temperature: 40° - 140° F

Pressure: 125 PSI maximum

STOP MATERIAL SPECIFICATIONS

Body	Brass, chrome plated
Handle	Zinc die cast, plated
Handle Screw	Steel, zinc plated
O-ring	Rubber
Stem Shaft	Polypropylene
Stem Barrel	TPE
Removal Flange	Nylon
Tube Insert	Stainless steel
Gripper Ring	Stainless steel
Locking Clip	Nylon
Compression Sleeve	Brass
Compression Nut	Brass, chrome plated

Listings & Certifications:

- IAPMO listed to ASME A112.18.1 / CSA B125.1 and ASSE 1061 (File # 0645)
- CSA listed to ASME A112.18.1 / CSA B125.1 and ASSE 1061 (File # 204593)
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

WATER SUPPLY STOPS – MULTI-TURN STOP

Use: For use in potable water distribution systems. Not intended for recirculating water systems that produce continuous use temperatures above 115° F. For those applications, use our KT™ series ball stops

Design Features:

- **Machined one-piece brass body** provides strength, durability, and long-lasting performance
- **Easy-to-remove handle** protects accidental stop operation during rough-ins
- **Oval knurled handle** provides a secure grip and smooth on/off operation
- **Handle variations** available for specific configurations – see variations page
- **Dual Outlet and Dual Outlet/Dual Shut-off** configurations available
-  **No Lead**

Operating Specifications:

Temperature: 40° - 140° F
Pressure: 125 PSI maximum

STOP MATERIAL SPECIFICATIONS

Body	Brass or brass, chrome plated
Stem	POM; brass; or brass, chrome plated
Handle	Zinc die cast, plated; ABS, plated; or Polycarbonate
Handle Screw	Steel, zinc plated
Bib & Packing Washer	Rubber
Packing Nut	Brass or brass, chrome plated
Compression Sleeve	Brass
Compression Nut	Brass or brass, chrome plated

Listings & Certifications:

- IAPMO listed to ASME A112.18.1 / CSA B125.1 (File # 0645)
- CSA listed to ASME A112.18.1 / CSA B125.1 (File # 204593)
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

RISER TUBES – STRAIGHT COPPER

Use: For use in potable water distribution systems in accessible locations only.

Design Features:

- One-piece construction
- Cut-to-length for clean, professional installation
-  No Lead

Operating Specifications:

Temperature 40° - 180° F

Pressure: 125 PSI maximum

Tubing Diameter: 3/8" OD or 1/2" OD

CONNECTOR MATERIAL SPECIFICATIONS

Tube	Copper per ASTM B-68
Insert	POM
Optional Brass Nosepiece	Brass
Optional Cone Washer	Rubber
Optional Brass Ring	Brass

Listings & Certifications:

- IAPMO listed to ASME A112.18.1 / CSA B125.1 (File # 0645)
- CSA listed to ASME A112.18.1 / CSA B125.1 (File # 204593)
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

RISER TUBES – PEX

Use: For use in potable water distribution systems in accessible locations only.

*Based on connector size, plastic tubing may require a plastic insert or sleeve (see 60PT & 63PT submittal forms for details).

Design Features:

- **One-piece** construction
- **Cut-to-length** for clean, professional installation
-  **No Lead**

Operating Specifications:

Temperature: 40° - 160° F

Pressure: 125 PSI maximum

Tubing Diameter: 3/8" OD or 1/2" OD

CONNECTOR MATERIAL SPECIFICATIONS

Tube	<i>Cross-linked Polyethylene (PEX)</i>
Compression Sleeve (3/8"OD)	<i>POM</i>

Listings & Certifications:

- IAPMO listed to ASME A112.18.1-2005 / CSA B125.1-2005 (File # 0645)
- NSF listed to ASME A112.18.6, ASTM F876 & F877, ANSI/NSF 14 & 61, cNSFus-pw, B125, C1-TD, and Uniform Plumbing Code
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

WATER CONNECTORS – SPEEDI PLUMB® PLUS

Use: For use in potable water distribution systems in accessible locations only.

Design Features:

- **Superior corrosion resistance** to harsh chemicals found in common household cleaning and plumbing repair products
- **Braided polymer-coated fibers** bend freely without kinking or crimping
- **Tough inner core** is reinforced to resist chlorine and chloramine leaching and deterioration
- **Rubber washers** provide a large pliable sealing surface and ensure a long lasting airtight connection
- **8-sided pneumatic crimp** provides greater dependability for reliable nut-to-hose connections
- **Deep threaded wing nuts** for quick and secure connections
-  **No Lead**

Operating Specifications:

Temperature: 40°- 140° F, intermittent to 180° F

Pressure: 125 PSI maximum

CONNECTOR MATERIAL SPECIFICATIONS

Inner Hose	Reinforced PVC
Braiding	PVC coated polyester yarn
Barb	Brass
Ferrule	Steel, zinc plated
Nut	Brass or polypropylene
Washer	Rubber

Listings & Certifications:

- IAPMO listed to ASME A112.18.6 / CSA B125.6 (File # 0452)
- CSA listed to ASME A112.18.6 / CSA B125.6 (File # 204593)
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

SPEEDI PLUMB® PLUS BRAIDED WATER CONNECTORS – STAINLESS STEEL

Use: For use in potable water distribution systems in accessible locations only.

Design Features:

- **Tough inner core** is reinforced to resist chlorine and chloramine leaching and deterioration
- **Plated brass nuts** for durability
- **Rubber washer** ensures a universal fit and long lasting water-tight connection
- **8-sided pneumatic crimp** ensures reliable nut-to-hose connection
-  **No Lead**

Operating Specifications:

Temperature: 40° - 140° F, intermittent to 180° F
Pressure: 125 PSI maximum

Tubing Diameter: 0.300" ID (0.550" OD)

MATERIAL SPECIFICATIONS	
Inner Hose	Reinforced PVC
Braiding	Stainless steel wire
Barb	Brass
Ferrule	Zinc plated steel
Nut	Brass
Washer	Rubber
Compression Nut	Brass

Listings & Certifications:

- CSA listed to ASME A112.18.6 and CSA B125.6 (File #204593)
- IAPMO listed to ASME A112.18.6 and CSA B125.6 (File # 0452)
- No Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01
- Tubing material is formulated with food grade ingredients and certified by NSF to standard 51 Food Equipment Materials

WATER CONNECTORS – SPEEDI PLUMB® - VINYL

Use: For use in potable water distribution systems in accessible locations only.

Design Features:

- **No kink hose.** The specially engineered reinforced PVC hose provides unique flexibility to prevent kinking and crimping
- **Greater strength and durability** with a tighter weave and two-layer bonded construction, outperforms conventional vinyl connectors
- **Rubber washers** provide a large pliable sealing surface and ensure a long lasting water-tight connection
- **8-sided pneumatic crimp** provides greater dependability for reliable nut-to-hose connections
- **Deep threaded wing nuts** for quick and secure connections
- **Tough inner core** is reinforced to resist chlorine and chloramine leaching and deterioration
-  **No Lead**

Operating Specifications:

Temperature: 40°- 140° F, intermittent to 180° F

Pressure: 125 PSI maximum

CONNECTOR MATERIAL SPECIFICATIONS

Hose	<i>PVC with polyester braid reinforcement</i>
Barb	<i>Brass</i>
Ferrule	<i>Steel, zinc plated</i>
Nut	<i>Brass or polypropylene</i>
Washer	<i>Rubber</i>

Listings & Certifications:

- IAPMO listed to ASME A112.18.6 / CSA B125.6 (File # 0452)
- CSA listed to ASME A112.18.6 / CSA B125.6 (File # 204593)
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

WATER CONNECTORS – ONE-PIECE SUPPLY - BRAIDED

Use: For use in potable water distribution systems. Not intended for recirculating water systems that produce continuous use temperatures above 115° F. For those applications, use our KT™ series ball stops

Design Features:

- **Everything you need.** Combines our trusted brass supply stop and braided water connector for an easy to install one-piece connection
- **Significant time and cost savings**

Braided connector provides:

- **Superior corrosion resistance** to harsh chemicals found in common household cleaning and plumbing repair products
- **Braided polymer-coated fibers** bend freely without kinking or crimping
- **Tough inner core** is reinforced to resist chlorine and chloramine leaching and deterioration
- **Rubber washers** provide a large pliable sealing surface and ensure a long lasting water-tight connection
- **8-sided pneumatic crimp** provides greater dependability for reliable nut-to-hose connections
- **Deep threaded wing nuts** for quick and secure connections
-  **No Lead**

Includes 1/2" nom shallow escutcheon
(see 649 submittal form for details)

Operating Specifications:

Temperature: 40°- 140° F, intermittent to 180° F

Pressure: 125 PSI maximum

STOP MATERIAL SPECIFICATIONS	
Body	Brass or brass, chrome plated
Stem	Brass or brass, chrome plated
Handle	Zinc die cast, plated; ABS, plated; or Polycarbonate
Handle Screw	Steel, zinc plated
Bib & Packing Washer	Rubber
Packing Nut	Brass
CPVC Insert	CPVC
CPVC Washer	Rubber
CPVC Nut	Brass

CONNECTOR MATERIAL SPECIFICATIONS	
Inner Hose	Reinforced PVC
Braiding	PVC coated polyester yarn
Barb	Brass
Ferrule	Steel, zinc plated
Nut	Brass or polypropylene
Washer	Rubber

Shallow Escutcheon	Stainless steel
---------------------------	-----------------

Listings & Certifications:

SPEEDI PLUMB® PLUS BRAIDED WATER HEATER CONNECTORS

Use: For use in exposed locations only to connect water heaters and other water connected devices to the water supply. Not intended for use with recirculating water systems that produce continuous use temperatures above 115° F. For those applications use the BrassCraft® CopperFlex™ or ProCoat® series connectors.

Design Features:

- **Superior corrosion resistance** to harsh chemicals found in common household cleaning and plumbing repair products
- **Greater strength & flexibility.** The patented polymer braid exhibits greater elasticity than stainless steel braiding, significantly increasing the flexibility of the connector
- **No kinking, no crimping.** The polymer braided jacket is specially engineered to bend freely without kinking or crimping the connector
- **Won't work harden** even with repeated bending
- **No dielectric union needed** with installation as the braiding and rubber are constructed of non-conductive materials
- **Longer connector nuts** allow a greater number of thread-to-thread contact and a better seal
-  **No Lead**

Operating Specifications:

Temperature: 40° - 140° F, intermittent to 180° F
Pressure: 125 PSI maximum

OPERATING SPECIFICATION				
	12"	15"	18"	24"
Flow Coefficient (Cv)	5.9	5.8	5.6	5.4

ΔP (Pressure Drop) = GPM^2 / Cv^2 for Example: 24" length connector @ 10 GPM
 $\Delta P = 10^2 / 5.4^2 = 100 / 29.16 = 3.43$ psi

MATERIAL SPECIFICATIONS	
Inner Hose	Rubber
Braiding	Coated polyester yarn
Barb	Brass
Ferrule	Brass
Nut	Brass
End Fitting	Brass
Washer	Rubber

Listings & Certifications:

- IAPMO listed to ASME A112.18.6 / CSA B125.6 (File # 0452)
- CSA listed to ASME A112.18.6 / CSA B125.6 (File # 204593)
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

COPPER WATER HEATER CONNECTORS

Use: For use in exposed locations only to connect water heaters and other water connected devices to the water supply

Design Features:

- **Superior galvanic corrosion resistance.** Patented internal dielectric sleeve effectively isolates dissimilar metals within the waterway to prevent galvanic corrosion
- **No dielectric union needed** with installation. Dielectric is built into the design of the connector
- **Less torque to seal** against the pliable rubber washer, especially on rough nipple surfaces
- **Longer connector nuts** allow a greater number of thread-to-thread contacts and a better seal
-  **No Lead** (WB Series only)

Operating Specifications:

Temperature: 40° - 180° F

Pressure: 125 PSI maximum

MATERIAL SPECIFICATIONS	
Tubing	Copper
Dielectric Sleeve	Polypropylene
Nut	Brass
End Fitting	Brass
Washer	Rubber

Listings & Certifications:

- IAPMO listed to ASME A112.18.6 / CSA B125.6 (File # 0452)
- CSA listed to ASME A112.18.6 / CSA B125.6 (File # 204593)
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

PROCOAT® STAINLESS STEEL WATER HEATER CONNECTORS

Use: For use in exposed locations only to connect water heaters, water softeners and other water connected devices to the water supply

Design Features:

- **Proprietary ProCoat® clear coat** provides unrivaled corrosion protection from harsh chemicals that can cause surface deterioration and pinhole leaks
- **Full flow, maximum performance.** ¾" internal diameter provides greater water flow without obstruction
- **Integrated dielectric sleeve** effectively isolates dissimilar metals within the waterway to help prevent galvanic and electrolytic corrosion
- **No dielectric union needed** with installation. Dielectric is built into the design of the connector
- **Less torque to seal** against the pliable rubber washer, especially on rough nipple surfaces
- **Longer connector nuts** allow a greater number of thread-to-thread contacts and a better seal
- **100%** Leak tested prior to coating application to ensure connector performance and reliability
-  **No Lead**

Operating Specifications:

Temperature: 40° - 180° F
Pressure: 125 PSI maximum

MATERIAL SPECIFICATIONS	
Tubing	Stainless steel
Dielectric Sleeve	Polypropylene
Nut	Brass
Washer	Rubber

Listings & Certifications:

- IAPMO listed to ASME A112.18.6 / CSA B125.6 (File # 0452)
- CSA listed to ASME A112.18.6 / CSA B125.6 (File # 204593)
- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

COMPRESSION FITTINGS

Use: For use with potable water, instrumentation, hydraulic, and pneumatic systems. Designed for use with aluminum, copper, and plastic tubing. Not intended for use with steel tubing.

* Plastic tubing requires a plastic insert and sleeve (see 60PT & 63PT).

Design Features:

- **Little to no tube preparation.** Compression fittings do not require flaring, soldering, or other types of tube preparation
- **Available in a broad range of sizes**
-  **No Lead**

Operating Specifications:

Temperature: -65° - 250° F at maximum operating pressures

Working Pressure: See chart below

Vibration: Fair vibration resistance

WORKING PRESSURE		
PSI	Tube O.D.	Tube Wall (Inches)
400	1/8	0.030
400	3/16	0.030
300	1/4	0.030
300	5/16	0.032
200	3/8	0.032
200	1/2	0.032
150	5/8	0.035
100	3/4	0.035
75	7/8	0.035

**Standard Fitting**

MATERIAL SPECIFICATIONS	
Fitting Body	Brass
Compression Sleeve	Brass
Compression Nut	Brass
Option	Chrome plating

Compliant Fitting

MATERIAL SPECIFICATIONS	
Fitting Body	Compliant brass
Compression Sleeve	Brass
Compression Nut	Brass

Listings & Certifications:

- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

FITTINGS – BRASS CPVC TRANSITION

Use: For use with water, grease, fuels, LP and natural gas, refrigeration, instrumentation, and hydraulic systems in low and medium pressure pipe line connections. Use in combination with brass, copper, and iron pipe.

Design Features:

- **Designed & manufactured** to SAE (Society of Automotive Engineers) thread standards
- **Also meets** ASME and ASA requirements
- **Available in** a broad range of sizes
- **Many Brass fittings** are compliant to California and Vermont health and safety codes. See catalog or refer to BrassCraft® Product Submittal Sheets
-  **No Lead**

Operating Specifications:

Temperature:	See Catalog
Working Pressure:	Up to 400 PSI – See Catalog
Vibration:	Fair resistance to vibration and pipe movement depending on conditions

MATERIAL SPECIFICATIONS	
Fitting Body	Brass
CPVC Insert	CPVC
CPVC Washer	Rubber
CPVC Nut	Brass
Compression Sleeve	Brass
Compression Nut	Brass

MATERIAL SPECIFICATIONS	
Fitting Body	Brass
CPVC Insert	CPVC
CPVC Washer	Rubber
CPVC Nut	Brass

Listings & Certifications:

- No-Lead product CSA listed to Low Lead Content Certification Program – Plumbing Products Class 6853-01

NIPPLES – BRASS PIPE

Use: For use with water, grease, fuels, LP and natural gas, refrigeration, instrumentation, and hydraulic systems in low and medium pressure pipe line connections. Use in combination with brass, copper, and iron pipe.

Design Features:

- **Designed & manufactured** to SAE (Society of Automotive Engineers) thread standards
- **Also meets** ASME and ASA requirements
- **Available** in a broad range of sizes
-  **No Lead**

Operating Specifications:

Temperature: -65° - 250° F

Working Pressure: Up to 1200 PSI

Vibration: Fair resistance to vibration and pipe movement depending on conditions

**MATERIAL SPECIFICATIONS**
