Are you getting the most out of your home's heating and cooling system?

You've taken care to select reliable, long-lasting heating and cooling equipment for your household. Take that attention to qualify one step further by choosing an Amana® brand evaporator coil or air handler for your home's indoor comfort system. Amana brand evaporator coils and air handlers can enhance your home's heating and cooling system by providing your family with reliable, efficient comfort for years to come.

Amana brand Air Handlers and Coils

The Amana brand single piece air handler is comprised of an ALL-ALUMINUM evaporator coil and a blower which circulates cooled or heated air throughout your home. The modular air handler is a multi-speed blower section which is matched up with a compatible indoor evaporator coil and connected to your outdoor cooling or heat pump unit. Amana brand air handlers are easy to install and when properly matched with an outdoor unit can significantly improve system performance.

Long-lasting, AHRI-certified performance

The Air Conditioning, Heating and Refrigeration Institute (AHRI) rates the heating, ventilation and air conditioning (HVAC) industry's standards for performance and efficiency. When you use Amana brand evaporator coils and air handlers, you get AHRI-certified performance, as well as premium quality, reliability and comfort.

A critical component to maximum comfort

The ALL-ALUMINUM Evaporator Coil is constructed from aluminum tubing, fins and panels, to give you a single metal solution for outstanding, time-tested, heat transfer performance properties. If you're looking for an evaporator coil that offers enhanced durability, coupled with enhanced performance, this is the product for you.

EEM High-Efficiency Motors — A Smart Way to Meet Efficiency Goals

Meeting high energy-efficiency levels is important. The multi-speed EEM motor used in the ASPF model provides increased efficiency as compared to permanent split capacitor (PSC) motor-based systems, offering a solution to meet today's high-efficiency targets.

In most cases energy-efficiency features influence buying decisions, and with energy costs rising, you may be looking for more energy-efficient products to help lower your utility bills. That's why our EEM high-efficiency blower motor built into the ASPF air handler is a smart, energy-saving solution for you and your family.

allows you to circulate air continuously. Continuous fan operation supports improved filtration, helping to reduce the air of dust and allergens – all the while making your home more comfortable and simultaneously working to reduce temperature variations throughout the home.

Along with energy-savings, comfort and air quality may be a key factor in the buying decision. To obtain better air quality and comfort, the EEM high-efficiency motor

Added comfort protection

PREMIUM WARRANTY* PROTECTION

**Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation and the unit must be installed in conjunction with a new split-system air conditioner or heat pump to which it is properly matched by the installer. Online registration is not required in California or Quebec.*

† Extended Service Plans not available in all states. Ask your dealer for complete details.

Amana[®] brand **ASPF** and **ALL-ALUMINUM Evaporator Coil** Advantages:

ASPF Air Handlers

- 10-Year Parts Limited Warranty*
- 1.5 to 5-ton blower capacities
- Foil-faced insulation
- Factory-installed filter rack
- Multiple airflow positions
- High-efficiency, multi-speed EEM motor

- System Efficiencies from 13 up to 16 SEER
- Field-installed electric heat from 3-20 kW evaporator coils

ALL-ALUMINUM Evaporator Coils

- 10-Year Parts Limited Warranty*
- 1.5 to 5-ton blower capabilities
- System efficiencies from 13 up to 19 SEER

- Superior corrosion resistance
- Aluminum lance sine fin design for optimum heat transfer
- Multiple airflow positions

AMANA BRAND QUALITY

Americans have been relying on long-lasting Amana brand products since 1934, when Amana, Iowa, native George Foerstner accepted the challenge of building a dependable beverage cooler. Since then, the Amana brand has enjoyed many firsts, including developing the first cold storage locker, being the first manufacturer to nationally market an upright freezer for home use, and introducing the first portable counter top microwave oven.

From the technology behind our Million-Air® heat exchanger to the inclusion of high-quality filter dryers in each of our air conditioners and heat pumps, we remain committed to the Amana brand's legacy of providing consumers with premium heating and cooling products that are built to last.
