## AUTOSNAP® STRAIGHT FITTINGS

### Snap-On Fitting for TracPipe® CounterStrike®

- The new patent pending AutoSnap® straight fittings are the only CSST fittings that do not require any disassembly or reassembly of the fitting to the TracPipe® CounterStrike® CSST.
- This greatly reduces installation difficulty and time as there are no small loose gaskets, O-rings, or retainer rings to contend with in a dark and/or cold work place environment!
- AutoSnap® is CSA listed and features a metal to metal cup seal without any exposed stainless steel pipe behind the new fitting.
- Reduced torque value and reusability all make for an optimum installer friendly fitting!
