Classic® Series RRPL 14 SEER
Prestige Series™ RRRL 16 SEER

Package Gas Electric Units

*You're looking at the best you
can buy in a gas electric
package unit. A step up in
design, technology
and efficiency –
creating a
more efficient
bottom line for
your home.*

relax
It's Rheem.™

- Quiet reliable Scroll® Compressor with a 10-year limited warranty.
- High efficiency rating for electric cooling and 80% A.F.U.E. rating for gas heating.
- Available in both single-phase and three-phase models, and in capacities ranging from 2 through 5 tons.
- Uses common roof curbs and is easily adaptable to either down discharge or side discharge to accommodate almost any installation requirement.

Quality That Endures

Rheem *Classic® Series* 13 & 14 SEER and *Prestige Series™* 16 SEER Package Gas Electric Units combine money-saving efficiency, whisper-quiet operation, environmental-friendliness and superb performance to bring you peace of mind – year after year. Nothing performs more dependably than a Rheem Package Gas Electric Unit. It's that simple.

A Look Inside

The Features You Want

1. The Scroll® Compressor.

All of our residential package units – regardless of efficiency level – feature the Scroll® Compressor. The scroll compressor uses a more advanced technology than traditional reciprocating compressors. They have fewer moving parts, and they are quieter, more efficient, and longer lasting.

2. Durable Cabinet with Louvered Condenser Compartment.

Our cabinets have a powder painted finish that protects them from the harshest weather extremes. And our louvered condenser compartment is the best in the industry for protecting the condenser coil against yard hazards and weather extremes.

3. Grille/Fan Motor Mount. Our motor mount helps protect the fan motor from the elements for longer life. Its design dependability helps reduce vibration and noise.

4. Furnace Compartment. Located inside the easily accessible furnace compartment is the control box, draft inducer motor, in-shot gas burners, the gas valve and manifold. Control box operational controls are “up front” for quick access and service diagnostics. The draft inducer motor is specially designed to quietly provide combustion air while simultaneously venting outdoors the combustion products from the furnace heat exchanger. In addition to the draft inducer motor, the in-shot gas burners, gas valve and manifold efficiently regulate the flow of gas for combustion. These new gas/electric units also feature direct-spark ignition and remote flame sensors for added dependability and efficiency.

5. Matched Blower/Evaporator Coil Unit. The blower is responsible for the flow of air into your ductwork. It has been designed to match the evaporator coil and other system components for maximum efficiency and quiet operation. In addition, all of the RRRL models feature a variable speed motor that provides more even comfort throughout your home.

6. Tubular Heat Exchanger. Our new package gas electric units feature a tubular heat exchanger design. Tubular heat exchangers are more efficient and durable than older-style clamshell heat exchangers. The factory standard heat exchanger is backed by a ten year limited warranty. All RRRL models feature a stainless steel heat exchanger which is backed by a limited lifetime warranty.

7. Service Fittings. Exterior service fittings enable a serviceman to quickly determine unit operating conditions.

Limited Warranty Information

All of our Rheem package units were developed with dependability in mind. All RRNL and RRPL models have a conditional parts warranty of 10 years (registration required). The RRRL has a 10-year standard parts warranty. The Scroll® Compressor in all the single-phase 13, 14 & 16 SEER models installed in commercial applications, has a five-year limited warranty. 13, 14 & 16 SEER single-phase models installed in residential applications have a 10-year compressor limited warranty. The Factory Standard Heat Exchanger is backed by a 10-year limited warranty. A Stainless Steel Heat Exchanger on a single-phase model installed in a residential application features a limited lifetime warranty. A twenty-year limited warranty is offered on Stainless Steel Heat Exchangers on single and three-phase models installed in commercial applications. All other parts installed in commercial applications have a one-year warranty.

Protection You Can Count On

While your Rheem equipment is incredibly reliable and covered by an outstanding warranty, you can extend your warranty coverage with Protection Plus® extended service protection. Then you can relax and enjoy the comfort of your Rheem package gas electric unit – without worrying about the cost of parts or labor for unexpected repairs. And when Protection Plus is purchased in conjunction with your contractor's maintenance program, you can enjoy the peace of mind that your equipment will be both maintained and repaired – as needed and without additional expense. Ask your contractor about the variety of Protection Plus plans now available. For more information, call 1-877-276-4294 or visit www.protectionplustonline.com.

KwikComfort® Financing

Ask your Rheem contractor about KwikComfort® Financing, the easy and convenient way to finance everything associated with your Rheem equipment – your original equipment, all subsequent service, Protection Plus extended service protection, and even the comfort options you might choose to add later.
