

Providing Quality And Design
To The Multi-Family Community

Delivering Real Value.

Total lower cost of ownership over the life of the product. Higher property value for you.

Presenting Cleveland Faucet Group® (CFG®), a full line of faucets and valves designed and built for multi-family properties, delivering total lower cost for multi-family property owners.

CFG offers proven value for life. In fact, an independent survey found that CFG faucets cost 36% less to maintain compared to other brands. For property owners, this accrues to improved operating income and an increase in overall property value. You can't argue with total lower cost of ownership over the life of every CFG faucet you install.

What's more, CFG is dedicated to improving your business in other ways. We've teamed with the United States Green Building Council® (USGBC®) to conserve the water supply and promote water efficiency through the LEED® program. Such initiatives have earned us recognition as an industry leader for outstanding sustainability practices.

On January 4, 2014, the 2011 Reduction of Lead in Drinking Water Act will take effect. On the effective date, applicable products not meeting the .25% weighted average maximum can no longer be legally installed in a plumbing system in the United States. CFG is proud to offer faucets that are fully compliant with this legislation. CFG SKU's that meet these requirements are easily identified by the following criteria:

- All new SKU's launched after January 1, 2013 are fully compliant - these SKU's are identified by a "Δ" in this catalog.
- SKU's launched prior to that date are distinguished by a "CA" prefix on the MFG# which indicates full compliance.

Built around your bottom line.

- Quality design, lasting durability
- Quick-install flexible supply lines
- Pre-installed shower valve connections
- WaterSense®-certified options
- Meets BAA requirements
- Flow-optimized aerators and showerheads
- Lower maintenance costs boost NOI, property value
- Meets EPA water safety standards
- All Cleveland Faucet Group's faucets are ADA-compliant
